Wheat Straw

Premium Option

About Wheat Straw

Our wheat straw eco-friendly accessories are a smart, environmentally responsible alternative to plastic. Wheat straw starch is the stalk left over after wheat grains are harvested. It has traditionally been treated as a waste, however now it is reclaimed and used to make our eco-friendly wheat straw accessories.

Say Yes To Less Plastic!

Wheat straw accessories are the clever replacement for regular plastic injection molded products such as toothbrush, shavers and combs. Wheat straw fibre is mixed with PE material to reduce the amount of plastic and reduce the waste of farm crop.

Key Benefits

- ✓ Uses 50% less plastic than regular products
- ✓ Made with eco-friendly natural wheat straw and food safe PE material
- ✓ Tough and durable, yet light weight
- ✓ Smooth texture and fade resistant
- ✓ BPA free
